

POLECAM SALES & DISTRIBUTION

MOVICOM is an official distributor for all Polecam rigs in the USA. Rigs like the Pro Pack and Starter Pack are available directly from Moviciom from the Los Angeles office. In addition to a full line of Polecam rigs, Movicom sells the exclusive Robycam XS gyrostabilized head for Polecams. Built around the latest generation of carbon-fiber gyrostabilized head technology, the XS is unique in its size and capabilities. You can take a fully 3-axis stabilized head with you anywhere you can put a Polecam!

ROBYHEAD XS

The Polecam system uses Carbon Fibre tubes that slot together to create a reach from 1.5m (5') to 8m (26'). The system is designed around a modular aluminium 'back-end'. In addition to Movicom's XS head, 2 pan/tilt heads are available from Polecam - the Narrow Head, and the Long Head.

The system supports a huge variety of cameras for every shooting situation.

Contact Movicom for more information, options and pricing.
